

C.O.R.E. Time
Centered **O**n **R**eaching **E**ach
Every Thursday

CORE is a designated time in our school week to provide each student with an additional opportunity to achieve success in school. These 25-minute blocks of time during each class period on Thursdays provide the opportunity for students to meet with each of their teachers to make up missed work, study for an upcoming test, work on a class project, complete homework or engage in various enrichment activities.

Our new CORE model:

YOUR SUCCESS

- ★ **Your feedback** on our trial week was helpful. You told us how we could do better. We listened and are improving the process.
- ★ **Your grades improved** – in the final weeks of Term 2, As & Bs increased by 6% and Ds & Fs decreased by 11%.
- ★ **We believe in the power of each student** having dedicated support time with each teacher each week. We're moving from 45 minutes to 100.
- ★ **We'll always include you in decisions** and provide a "why." Our staff is fully committed to your success.
