Gallery Studies & Exhibition Creation, Multimedia Story Production

EPHS Pathways

Pathways at Eden Prairie High School provides a set of experiences that students can pursue to engage in deeper learning while preparing them for future careers and life goals. Students have the opportunity to gain and apply knowledge and skills as they take part in resources, projects, and audiences that are authentic to a specific career field of interest. They also interact directly with industry professionals to enhance their learning and experience.

Our five Pathways are Business & Management; Human & Public Services; Natural & Applied Sciences; Engineering, Technology, & Manufacturing; and Communication Arts.

Pursuing a Pathway is not something that students test into or add to their course credit load. It is an opportunity to work within the graduation requirements and available activities to see the bigger picture of where a student's interests lie, what opportunities may be available to them in the future, and tailor their experience appropriately. It provides a path for their educational journey, exposure to "real world" opportunities, and highlights their development in a specific field. A Pathway experience can enrich their time at the high school, and set them up for success after graduation.
