2.8.1 Furthermore, the Superintendent shall not: Promise or imply permanent or guaranteed employment.	
Operational Interpretation: I interpret this policy to mean the District shall not hire or retain any employee or promise a potential employee employment with the District whose term and condition of service is not controlled by the Public Employee Labor Relations Act (PELRA), Minnesota State Statute, a Collective Bargaining Agreement (CBA), an At-Will Work Agreement, a contract for services.

2.8	.2 Furthermore, the Superintendent shall not: Establish current compensation and benefits that deviate materially from the geographical or professional market for the skills employed. Further, compensation and benefits must not deviate from Board-established parameters.	
<ol> <li>1.</li> <li>2.</li> <li>3.</li> </ol>	"Compensation" refers to payment for services rendered. "Benefits" are added services that have value for the employee and are expenditures for the District.  I interpret the "geographical" market to mean the public school districts in the immediate area surrounding Eden Prairie.  The "professional" market refers to compensation based on the combination of experience, skills, and level of responsibilities that are required by the position's job description. The professional market can be influenced by the geographical market.  "Material deviation" in this context is interpreted as a financial condition that would create an unfavorable comparison to the geographical and professional employee market.	
1. 2.	The District routinely competes for employees with local, regional, and national employers. Therefore, it is important that our employee compensation and benefit package remain competitive and yet function within available resources.  The District routinely enters into employment agreements with organized groups or at-will individuals via negotiations. Typically, the Administration leads the negotiations process with School Board support. The School Board has retained the authority to determine the level of compensation and benefits offered to employees, which is referred to in this policy as "board-established parameters." The District conducts market place comparisons annually.	

Measurement Plan:	
Prior to each bargaining session, a marketplace comparative data analysis will be completed.	
<u>Evidence:</u>	
Marketplace comparative data was collected on six (6) bargaining groups. The school district settled five (5)	
of these employment agreements within Board parameters and the contracts are comparable to the	
market. One agreement remains open and is in negotiations as of October 26, 2020.	
Statement of Assertion:	
Report is Reasonable and Evidence support the Operational Interpretation
